California Proposition 65 Statement.

(update 25th May 2018 – regulatory from 31st August 2018)

Dear Customers,

Isocom Components 2004 Ltd recognize and to meet with the requirements for Proposition 65 labeling / warnings on electronic components (update 25th May 2018 – regulatory from 31st August 2018) supplied to companies who may manufacture products in California, or companies who may resell products in California advise as noted below:-

- 1) Products contain substances identified on the latest [Prop 65 List](#)
- 2) We are not planning to provide Proposition 65 Warning labels on products produced after August 30, 2018.

NB:

Product contains '**TRACE ELEMENTS**' in homogenous material deemed of '**no significant risk**'

To follow from this statement MDS for product can be made available to customers on request – enabling their assessment for their end product.

- 3) Information will be provided as / when applicable for product changes that affect their compliance to California Proposition 65.

Signed:- *M. Smalls*

Date:- 20th August 2018
