PFAS Materials Statement

Isocom Components 2004 Ltd. is committed to ensuring that our products meet stringent environmental and safety standards.

Based on information provided by our suppliers, all products supplied by Isocom Components 2004 Ltd. contain no Per- and Polyfluoroalkyl Substances (PFAS), which are known for their potential environmental and health impacts.

We actively engage with our suppliers to maintain this status and ensure ongoing compliance with environmental regulations.

Isocom Components 2004 Ltd. takes all reasonable steps to confirm that our products align with every environmental, health, and safety requirement, supporting our customers' efforts to maintain a responsible supply chain.

This declaration is valid as of the date below, with updates or changes reflected in future revisions.

Dated: 15th October 2024

Nathan McDonough
Technical, Quality Assurance, and Compliance Manager
